Native-real piecewise-linear history: exact jump remainders
Physical epsilon unavailable; physical bound coverage 0/313
1240 exact retimings; 12 causal-prefix skips
cross left |exact remainder|
cross left absolute jump bound
cross right |exact remainder|
cross right absolute jump bound
within cell: exactly zero
|Retiming remainder| / bound
(occupation departure)
Original incoming query index
313 exact Peano chords; final-cell endpoints use causal fallback
|exact chord remainder|
absolute Peano jump bound
|Chord remainder| / bound
(occupation departure)
Original incoming query index
