Representative ionization response to the thermal closure
All21 states are exported; n/T remain exactly zero by the frozen no-nuclear-source model
s03_m03_r03 | solid: dynamic; dotted: prescribed
s03_m03_r03 | signed differences at common redshift
s04_m04_r04 | solid: dynamic; dotted: prescribed
s04_m04_r04 | signed differences at common redshift
Redshift (Mao reference clock)
Conditional ion fraction
Dynamic − prescribed fraction
Elapsed since donor z=20 [Myr]
